

Dear Parents

A Warm Greetings from Notredame

1. HELPING HAND TOWARDS THE POOR

“Do not forget the doing of good and the sharing of things with others, for with such sacrifices God is well pleased.” ([Hebrews 13:16](#)).

As the Christmas is coming soon; we need to take little step to help the poor to make Christmas a meaningful one. Wise parents train their children to help the elderly, the sick, and children who are disadvantaged. As a result, children learn to be kind and generous year-round. Henceforth, our school children will like to go to some orphanages like KarunaiIllum, Missionaries of Charity, St.Joseph’s Hospices (Dhindukal), Old age home, etc.... Therefore, we request the parents to give in kind like Bedsheets, Dhoti, Sarees, Shirts, Soaps, toothpaste, and other useful items. The Report of our service to the disadvantage, the Poor and needy will be given to you later.

2. MATHEMETICS WORKSHEET

Mathematics is a subject which is not supposed to be memorized but understood by the students. Knowing the problems of the students we have shortlisted the portions into Maths I and Maths II. Besides, The students of class V to VIII are given worksheets in a Booklet form to have regular practice at home. The students are asked to practice Maths at least 30 to 45 minutes in a day at home daily. The students are asked to pay Rs.30/-towards the cost of Maths worksheets.

3. WEEKLY TEST ON MATHEMATICS

Mathematics department of our school has decided to conduct weekly test on Mathematics for all classes. The students are advised to take the test seriously and come well prepared. The parents are requested to motivate their wards to excel in mathematics.

4. LKG ADMISSION:

Application forms are being issued in the school office for new admissions to LKG. The parents who are interested in enrolling their little ones in the school may collect the application forms and return them after duly filling in all the particulars required.

5. HARMFUL EFFECT OF SOCIAL MEDIA

We are easily connected to the world through social media.Itgives us a lot of information, data and knowledge. It helps to exchange ideas and networking skills. On the other hand it is a rage today and affects the children very badly. It has come to our knowledge through some parents that our children are found immersed with social media like Face Book, Twitter, Whats App, Instagram, snapchat etc.. that deviates the attention of students from studies. Distraction of any kind will lead to daydreaming and finally disastrous effects and less productivity. You can permit your wards to make use of the internet and website facilities to collect vital information only about their subjects and studies in general. I would appeal to the parents to be firm on this score and help them grow into beautiful persons. Violation of any kind regarding this clause will be seriously dealt with.

6. KEEP YOURSELF AWAY FROM DENGUE

Dengue fever, also known as break bone fever, is a mosquito-borne disease that can lead to a severe flu-like illness. It is caused by four different viruses and spread by *Aedes* mosquitoes. Our state is very badly affected by disease. We have to control against this disease by keeping by environment neat and clean. Let us also promote the dengue awareness to the people whomever we meet. The students of Class V – E have demonstrated the awareness of dengue during the school assembly. I thank the students and teachers for the wonderful steps that you have taken to spread the awareness to the students. I wish that the awareness which emerged in our students reaches far and wide.

7. HANDBALL TOURNAMENT

We are proud to inform you that the school is organizing Salem Sahodaya Handball Tournament On 11th Nov 2017. A number of schools have registered to take part in the tournament. The students of our school and parents are encouraged to come in large number and witness the tournament and encourage our school team.

8. 2nd MID TERM TEST

Examination is meant to judge the ability of the students. If there is no examination certainly the students won't study a single word. The second midterm is going to be held on 20th November 2017. The students are asked to put a lot more effort towards studies and come out in flying colours. No student should avail leave for the exam. Incase of emergency students can take leave but no retest will be conducted.

9. SEMINAR FOR CLASS XII

The students of class XII will have one day seminar on 11th November 2017. It is a compulsory programme, all the students are expected to participate in this seminar without fail. The seminar will focus on How to prepare for the Board Examination and various methods of scoring good marks. The psychological factors of the students also will be in focus.

NOTE:

All parents are updated about all the school activities by regular circular and through our website. For more information log onto www.notredamehcs.org
